BRIEF ABSTRACT OF LETTER.

NOTES AND ORDERS.

SUBJECT No. 56.

Training of Police Officers and Inspectors in Police Schools and the appointment of a detective Inspector.

Mr. M. Hassan Ali Beg, Mysore City Municipality.

Summary of discussion.—The Police in this State do not know the right way of detecting cases and often make themselves liable to be charged for extortion. The innocent will often be brought into trouble. It is therefore requested that Police Officers and Inspectors may be train-

ed in Police Schools as in the Madras Presidency, and that a detective Inspector may be appointed for the State.

Reply of Government. - Most of the Police Officers are being trained in the Head-quarters Police Training School at Bangalore. The subject of forming a detective department is noted.

It appears from the statement submitted that the staff required will be drawn from the existing force and that substitutes will be appointed in the vacancies caused thereby. Therefore the amount of Rs 264 per annum seems to be unnecessary.

This is necessary

22/11/08

that a sum of Rs 6000 per annum should be placed absolutely at the disposal of the I. G. to defray the cost of the establishment.

The I. G. only gives the approximate no. of Inspectors, Jamedars and Constables required. Provision is made for an allowance of Rs 50 to the H.D.-Qr. office host and an allowance of Rs 20 to the Anthropometry Inspector with a view to remunerate them for the additional duties devolving on them consequent on the location of the C. I. D. in the Chief Office. No provision seems to have been made for the travelling allowance of the staff. If the scheme be sanctioned provision will have to be made in the next year's budget. Whether the provision can be retained finally. As the budget at present stands the Revenue is estimated at 2,28,20,000 Rs & the expenditure (taking the figures provisionally sanctioned, the P.W.D. grants as desired fixed by the Ch-Eng & including the cost of new items for consideration at budget time) to Rs 2,41,38,000 on resulting in a deficit of Rs 13,18,000. It thus remains ~~to~~ to be determined what items ^{should} ~~may~~ be omitted & what grants reduced to bring about a balance leaving a sufficient surplus to cover small variations in receipts & expenditure.

22nd July 1908.

My dear Mr. Puttanna Chetty,

My official letter No. 418 dated the 8th ultimo about the formation of a Criminal Investigation Department in Mysore on the basis recommended by my predecessor Mr. Carr.

Owing to the daily increasing correspondence in this branch with the several Provinces in British India - anent the movements and various ramifications of organized criminal gangs, I feel compelled to urge upon Government the urgent necessity of their according early sanction to the proposal as contained in the above letter. The present strength of the Establishment which consists of 1 Inspector and a clerk on Rs 25/- finds it absolutely impossible to cope with the work.

And taking ~~the~~ signs of the present troublous

time into consideration. I think the necessity to have a special staff of the kind both ~~in~~ a preventive and detective measure becomes all the more great. I therefore request you will see your way to obtain the sanction of Government without further loss of time.

Yours sincerely,

67 These papers relate to a scheme submitted by Mr. Carr, lately Inspector General of Police in Mysore, for the establishment of a Criminal Investigation Department in Mysore for collecting and distributing information regarding organised crime and assisting the local Police in the investigation of special or difficult cases. The details are contained in the memo of instructions appended to Mr. Carr's letter dated 10th March 1908. The cost of the scheme, exclusive of travelling allowances to the men employed, is estimated at Rs.6,000 per annum. The present Inspector General, Mr. Devaraj Urs, also fully approves of Mr. Carr's scheme.

As it was not found possible to provide the necessary funds for starting the scheme in the Budget of this year, the question was deferred; but the Inspector General has again written urging the importance of forming a Criminal Investigation Department early and saying that towards the cost of the Department for the rest of the current year, he could spare a sum of Rs.2,000 from the Police Budget.

Paper in des as found

The Financial Branch has no objection to the scheme being sanctioned temporarily for one year but points out that if it is to be permanent, equivalent savings in other directions should be effected.

The matter having been considered in Council, the Council is of opinion that the proposed scheme for the formation of the department may be approved and that the staff may be regarded as temporary

till the end of June 1910 or till funds can be provided for its permanent retention. It is proposed to meet the cost during the remaining months of the current official year by re-appropriation from the source pointed out by the Inspector General, viz. the grant for equipment and clothing.

The recommendations of the Council may be approved.

Summary of discussion. -

The Police in this State do not know the right way of detecting cases and often make themselves liable to be charged for extortion. The innocent will often be brought into trouble. It is therefore requested that Police Officers and Inspectors may be trained in Police Schools as in the Madras Presidency, and that a Detective Inspector may be appointed for the State.

Reply of Govt. -

Most of the Police Officers are being trained in the Ho. Qrs. Police Training School at Bangalore. The subject of forming a Detective Department is noted.

Sir,

Your docket No: J.1507/R.A. dated 7th instant in
the matter of forming a separate Detective Department.

I have the honor to state that the matter has been
engaging my earnest attention for some time past, and I hope
to come up to Government shortly with definite proposals for
the formation of a Criminal Investigation Department.

With this object in view, I intend to visit Madras
during the Xmas holidays, to consult Mr. Fawcett, the Deputy
Inspector General of Police in Madras, who is formulating
proposals for a similar Department for the Madras Presidency.
The working of a Detective or Criminal Investigation Depart-
ment - may appear at first sight an easy matter, but it is,
as a matter of fact, the most difficult problem which the
Police Department has to solve. It is this very difficulty

which

3
which has deterred the Police of the various Provinces of India ,
from starting Detective or Criminal Investigation Departments
during the last 30 years.

I have the honor to be,

SIR

Para 166 - page 117 of the Indian Police Commission's Report and para 87 of the Resolution of the Government of India thereon and this office letter No. 3930/443 dated 12th December 1906.

1. I have the honour to forward herewith a tentative scheme for establishing a Criminal Investigation Department in the Province. The matter has been under my consideration for some years past; and I visited Madras last year, with a view to acquaint myself with the details of the Criminal Investigation Department which was lately started there

I may speak with some authority on the subject, as apart from my general knowledge of Police administration, I have had special opportunities of working a Detective Department on the Kolar Gold Fields for the last seven years. The proposals therefore which I now send up are the outcome of some personal experience of detective work.

2. Mysore is in a way in a better position than
the

the Madras Presidency in starting an experiment of this sort, as the Inspector General himself will be the Head of the Criminal Investigation Department, and will indent on any District at any time for the men he requires; whereas the Deputy Inspector General in Madras is more or less tied down to particular men set apart for the work.

3. If this experiment is to be a success it is most essential that the Inspector General should be given a free hand, and a certain sum of money, say Rs 6,000/- per annum, being placed absolutely at his disposal; with the proviso, that within the limits of this budget allotment, he may be allowed to employ whatever grade or class of officers he desires, on any work, and for any length of time. This system has been found to work most successfully on the Gold Fields. In some years not more than $\frac{1}{2}$ the allotment is expended; in other years $\frac{2}{3}$ and so on, according to whether important cases have to be worked at or not.

4. As regards the staff, I have merely laid down approximately - vide statement A attached - what I consider may be the required numbers in regard to Inspectors, Jamadars, and constables occasionally employed; but as I have pointed out, I think it would be better not to tie ourselves down to any particular scale, but to leave it to the Inspector General to employ what officers he thinks fit on any particular case or cases. This proposal has the merit of keeping up a healthy spirit of emulation among the members of the Force; as any man who shows detective ability may find himself employed at any time in the Criminal Investigation Department.

5. With regard to my proposal for an allowance of Rs 50/- to my Office Assistant, and an allowance of Rs 20/- to the Inspector in charge of the Finger Print Bureau, I consider that these allowances will to a certain extent compensate both officers for the extra work which will devolve on them, in consequence of the creation of the Criminal Investigation Department, which will be located in the Chief Office.

6

6. I enclose a confidential memo of instructions which I propose to issue to the Criminal Investigation Department.

7. With the improved means of communication all over India provided by railways and telegraphs, which all classes of criminals are beginning to make full use of, it is most essential that the Police Department should equip itself with the means of dealing with professional and wandering criminals, and of investigating crime outside the Province. The proposed Criminal Investigation Department will meet this want, and enable the Inspector General of Police to collate and distribute information to all Districts in cases of organized crime; and to assist District officers in investigating specially difficult crime, the ramifications of which may extend beyond their respective Districts, or, even beyond the limits of the State.

I have the honour to be,

Sir,

Your most obedient servant,

Inspector General of Police

7

CONFIDENTIAL.

Instructions relating to the
Criminal Investigation Department, Mysore State.

1. The Criminal Investigation Department will be under the personal direction of the Inspector General of Police.

2. The Department is formed for the purpose of collating and distributing information regarding organized crime; and to assist the local Police in the investigation of cases, when they are of such a special or difficult character ^{as to} ~~and~~ render such assistance ~~as~~ necessary. It is in fact a means of linking up the Districts.

3. It will assist the District Police either by (a) investigating crimes, or tracing gangs and criminals, at first hand, or (b) by placing an officer of the staff at the disposal of, and to assist the District Superintendent of Police. An officer of the Criminal Investigation Department, who is thus deputed, will be directly responsible to the Inspector General for the quality of his work, as well as for his conduct; but will work with, and under the District Superintendent of Police of the District in which he is employed.

4. The Inspector General will be the only authority at whose instance C.I.D. officers can be employed; and the staff will on no account interfere in any inquiry, without special instructions from the Inspector General of Police. The work of the Criminal Investigation Department in no way lessens the responsibility of the District Police, in matters of prevention, investigation and detection of crime; but it is intended merely to assist in detection, and to supplement information.

5. Inquiry into the following classes of crime will be undertaken if necessary, by C.I.D. officers :-

(1) Murder or attempt where the object is plunder, or when death has been caused or attempted by drugs or poisons.

(2) Thefts of all kinds when drugs have been used.

(3) Robbery, dacoity, or any other crime of a kind which implies a criminal organization extending beyond the District or Province.

(4) Professional crimes - crimes by regular dangerous professionals. This does not mean and include crimes by the local known depredators. It means (a) such crimes as are the work of professional criminals in Districts other than their own. It includes (b) an appreciable increase or outbreak of any special class of crime the perpetrators of which are unknown, or are suspected to be Foreigners.

(5). Coining - Cases of coining whether with moulds or dies. Anything relating to the making of dies for coining. Appearance of an unusual number of counterfeits at any place, or of one or more of specially good manufacture. Gangs of coiners, whether suspected or discovered.

(6). Note forgeries.

7. Movements of dangerous criminals, who are known or suspected to work beyond the limits of the Province, or any particular District.

6. In addition to the special ~~cases~~ or case ^{diary}, which every officer making an investigation into a cognizable crime has to maintain, the Criminal Investigation Department Inspectors will submit a weekly diary to the Inspector General when they are employed on special C.I.D. work.

7. In connection with the investigation by officers of the C.I.D. except special, or case diaries, all records will be considered absolutely confidential, and will under no circumstances be produced in Court.

8. All Police records should be open to the inspection of C.I.D. officers not below the rank of Inspector.

Inspector General of Police.

TO

K. S. Chandrasekhara Aiyar Esq., B.A., B.L.,

SIR,

With reference to your No. J 3131/Pol. 108-07-4 dated the 14th April 1908 calling for my opinion on the Criminal Investigation Department scheme before Government, I have the honour to state, that in these days of extensive railways organized criminal gangs have all the facilities for moving away to distant parts soon after committing a crime. In these cases it is extremely difficult to a Local Police officer to pursue the gangs for the purpose of capture or for the purpose of collecting evidence without prejudice to continue work within his own jurisdiction. These gangs carry on their operations in more places than one and will at the same time be moving about. A special establishment of officers and men is absolutely necessary for this purpose.

The Criminal Investigation Department should have men of special training with intelligence over the average. They do not in the least interfere with the legitimate sphere of work pertaining to Local officers but are of immense help to the latter in the way of gathering and furnishing them with evidence from outside their jurisdiction. It is high time I believe that this establishment of Police is established in Mysore as early as possible.

When I paid a visit to Kolar Gold Fields during the

latter

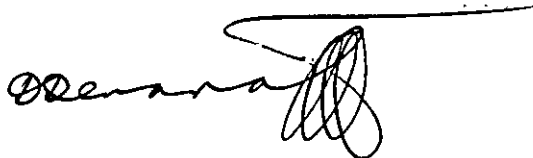

latter part of May last, I made enquiries as to how it is working there and I understand that the results are sufficiently satisfactory.

In these circumstances I strongly support the ~~the~~ recommendation of my predecessor on the subject. The establishment which he has submitted to Government is a modest one and is I think adequate enough for the present and I request that you will kindly move Government for the early sanction of the same so that I may be able to start the scheme from the beginning of the next official year.

Sir,

With reference to your letter No.J.925/Police.108-06-
dated 19th September 1908 regarding the formation of a criminal
Investigation Department in Mysore, I have the honor to state
that the details of the establishment proposed have been fur-
nished in the statement forwarded with this office letter No.
See S.B.249 dated 10th March 1908. The annual cost of the establish-
ment is Rs.6000/-, but seeing that a quarter of the year has
already elapsed the amount required for the remaining portion of
the current year will be Rs.4500/-.

As already stated by Mr. Carr it is better not to
stick to the actual scale and grade of officers and men employed
but I would so manage the department as not to exceed the amount
allotted.

I have already in my letter No.S.B.130^X dated 14th
September 1908 specifically stated that I would manage to spare
Rs.2000/- from the head "Equipment and clothing" in the Police
Budget for the current year. The balance of the amount require

In some years not more than $\frac{1}{2}$ the allotment is expended; in other years $\frac{3}{4}$, and so on, according to whether important cases have to be worked at or not.

4. As regards the staff, I have merely laid down approximately (*vide* statement A attached) what I consider may be the required number in regard to Inspectors, jamadars and constables occasionally employed; but as I have pointed out, I think it would be better not to tie ourselves down to any particular scale but to leave it to the Inspector-General to employ what officers he thinks fit on any particular case or cases. This proposal has the merit of keeping up a healthy spirit of emulation among the members of the Force; as any man who shows detective ability may find himself employed at any time in the Criminal Investigation Department.

5. With regard to my proposal for an allowance of Rs. 50 to my office Assistant, and an allowance of Rs. 20 to the Inspector in charge of the Finger Print Bureau, I consider that these allowances will to a certain extent compensate both officers, for the extra work which will devolve on them, in consequence of the creation of the Criminal Investigation Department which will be located in the Chief Office.

6. I enclose a confidential memo of instructions which I propose to issue to the Criminal Investigation Department.

7. With the improved means of communication all over India provided by railways and telegraphs, which all classes of criminals are beginning to make full use of, it is most essential that the Police Department should equip itself with the means of dealing with professional and wandering criminals, and of investigating crime outside the Province. The proposed Criminal Investigation Department will meet this want, and enable the Inspector-General of Police to collate and distribute information to all districts in cases of organised crime; and to assist District Officers in investigating specially difficult crime, the ramifications of which may extend beyond their respective districts, or, even beyond the limits of the State.

No. J. 2474-83—POLICE 108-06-9, DATED BANGALORE, 25TH FEBRUARY 1909.

ORDER THEREON.—Mr. Carr, the late Inspector-General of Police, submitted with his letter No. S. B. 249, dated the 10th March 1908, for the sanction of Government a scheme for the establishment of a Criminal Investigation Department in Mysore for collecting and distributing information regarding organised crime and for assisting the local police in the investigation of special or difficult cases. The object and scope of the new Department are explained fully in the Inspector-General's letter read above. The scheme has also the entire approval of Mr. Devaraj Urs, the present Inspector-General of Police. The cost of the scheme exclusive of travelling allowances to the men employed is estimated at Rs. 6,000 per annum.

2. Government are pleased to accept the recommendation of the Inspector-General and sanction the scheme as a temporary measure till the end of June 1910. The Inspector-General will, before that date, submit a report as to the working of the scheme. The cost of the Department during the remaining months of the current official year will be met by reappropriation from the source indicated by the Inspector-General, viz., the grant for equipment and clothing. Provision will be made in the next year's budget for the remaining period.
